

## Schedule B: Digital WarRoom Plus Professional Services Pricing

Lacking expertise to solve an unusual problem? Lacking man power to meet your deadline? Our consultants are available upon request. Our goal is to enable you to complete these services on your own. However, we recognize that there are difficult problems and unusual IT configurations that may require professional services. We will provide a statement of work, forecast a budget and have our project management team check in with you monthly. Please also take note of our included project management and email support desk.
